The screenshot displays the Robo 3T application interface. On the left, a sidebar shows the database structure: System, clouddb, config, data, dvnadh, karan, library, mydb, and newfile. The 'mydb' database is selected, and the 'person' collection is highlighted. The main window shows a table of data from the 'person' collection. The table has columns: \_id, index, name, isActive, registered, age, gender, eyeColor, favoriteFruit, company, and tags. The data is sorted by \_id in ascending order. The table contains 20 rows of data. Below the table, there is a 'Logs' section. The bottom of the screen shows a Windows taskbar with the date 28-08-2024 and time 11:24.
